The Santon, which started up the river about a week ago, is still hard and fast opposite Columbia City. Various causes are given for the casualty, and if, as alleged, the pilot is responsible, the Board of Pilot Commissioners will have a case of investigation. We learn that the pilot's bondsmen ask to be released in the matter.

At Liberty Hall, To-Night.

To Lieut. Schwatka, of our own State, must be accorded the honor of being the only Arctic explorer who won the encomiums of the entire world. The London Royal Geographical Society say: "The achievement of Lieut. Schwatka and his companions is most remarkable, and in many respects his journey is without a parallel. It reflects the highest credit on the Commander and on those who served under him so admirably; and it is certain that the work could not have been done without natural qualities of a very high order, combined with careful training and the most thoughtful adaptation of the best attainable means to the end in view."

The S. F. Examiner of July 30th, says: "Last night Lieut. Schwatka, U. S. Army, who is well known as a determined and successful Polar explorer, and whose exploits in the frozen regions are a pride and a boast to all Americans, delivered a lecture on Arctic explorations before the Academy of Sciences. The hall, which will seat over 1,000, was so densely packed that the heat was almost insupportable, but the audience was so deeply interested in the lecturer and his extraordinary discourse that they scarcely noticed the inconvenience." He lectures at Liberty hall to-night and we shall be glad to note a full house for the distinguished lecturer.

The Oracle.
The clipper ship, Oracle, now lying in this port, is a fine specimen of an American vessel. She was built in Hittcock and Blair's ship yard at Bath, Maine, and is rated A. 1. Her length is 225 feet, breadth of beam 54 feet, and she registers 1550 tons. She has made the best time on record for a sailing vessel on the trip from Liverpool to Philadelphia—sixteen days; on this voyage she made, by log, 318 miles in one day. She left New York for the Columbia on the 19th of last April, making the run in 141 days. She brought to Portland sufficient railroad plant of all kind to fully equip twenty miles of road, and takes on a large cargo of wheat for Liverpool direct.

Hon. M. C. George, now on route to Washington, called upon us yesterday. Without being at all sanguine, Mr. George is of the opinion that something can be done this winter looking toward the recognition by Congress of the great importance of the Columbia, and the appropriation of a sufficient sum to do some good. We shall be glad to know that Mr. George will have been appointed on the committee having river appropriations in charge, feeling confident that he will do all that can be done in the matter.

Owing to the stormy weather, the daily express between here and San Francisco failed to connect; but instead we have filled our case with a choice lot of creams and other candies of our own make, at the Astoria Candy Factory.

Acknowledgment.

Mr. Dement has handed us the following which is self-explanatory:

CLEVELAND, O., Nov. 3, 1881.
W. E. Dement, Astoria—Dear Sir: We are in receipt of your favor of Oct. 25th with remittance of \$22.85 (twenty-two dollars and eighty-five cents) for the Garfield Monument Fund. We thank the citizens of Astoria in the most hearty words for the deep sympathy they have shown for our national work, and hope this worthy example may be followed by many other communities throughout the country. The names of all contributors will be recorded in books which will be preserved in the monument.

Very respectfully,
T. H. WADE,

Fresh hard, of their own manufacture, at Warren & Eaton's.

California nurserymen are going through Oregon buying all the fruit trees they can find sellers for, to ship them to the Golden State.

When Mrs. Fry, of Unionville, recently eloped, she added insult to injury by leaving a note advising her husband to marry a frugal widow of their acquaintance whom she knew would be good to the "seven small Fry."

Warren & Eaton have moved to the corner of Hamilton and Chenamus streets, in the building formerly occupied by Trencard & Uphur.

The Dalles Times learns from a reliable source that the Northern Pacific Co. are not only intending to build their road from a point below Tacoma to Seattle, but even further north, to the line of the British provinces. They may eventually form a connection with the Canadian Pacific.

The finest and freshest candies and French sweetmeats at Adler's. Newest novelties by every steamer.

The Salem Talk says that it is reported that Capt. Hatch, owner of the river steamer A. A. McCully, will build a dock and warehouse at the foot of State street during the present winter. This independent line is said to be the nucleus around which the lately organized "Farmers' Transportation company" proposes to build up the means of carrying their own freights when they meet sea going vessels.

The New Testament authorized edition revised, for twenty-five cents at Charles Stevens and Sons City Book store.

Fresh bear tracks are frequently seen in the neighborhood of John Day river of late. Brain is credited with having some sagacity and strong appetite for fresh pork, and many anecdotes are connected therewith. A few nights since a smoke house on a ranch at the mouth of the aforesaid river was visited, the two largest shoulders of pork abstracted and the doors carefully closed. The owner feels too utter for utterance, but must grin and bear his loss while he brings all his mathematical faculties in exercise to determine how many pedals that nocturnal pilferer possesses.

A splendid lot of Eastern Oysters just arrived by the State of California at Tom Smith's Oyster Saloon, Main street.

We are in receipt of a statement which alleges that the object of the Veterans' Home Association of California is to found an honorable refuge for every disabled man on the Pacific coast who has ever defended our country's flag, on land or sea. It says that of the men who conquered this coast from Mexico, or bravely preserved our National existence several hundred are in public hospitals and poor-houses, and others are on the verge of beggary. "The American Republic stands disgraced! Agitate this subject with patriotic earnestness." Veterans are requested to organize and send for subscription books. Independent contributions may be sent by draft, postal order on Wells, Fargo & Co., payable to the Treasurer of the Association. San Francisco, California.

The steamer Diana arrived in the London docks from Labrador last September, having in her refrigerating room 6,000 salmon in perfect condition. Many of the fish were taken out, soaked for an hour or two in cold water to melt gradually the frozen flesh, and then gradually cooked, with the result that it was utterly impossible to tell the outlets or heads "head and shoulders" thus obtained, from the freshest and cleanest run fish which passes from the pool directly into the kettle. The flesh was declared to be quite firm, pure and clear in color, the flavor absolutely unimpaired, and the "curd," about which every connoisseur is justly particular, exhibited itself as freely and richly as upon the flakes of a seasonable Tay fish.

Adler's new stock of goods, now being opened, is enormous. To enumerate the styles and varieties would be impossible. Take a look at them yourself.

Notice.

We still offer another price of seven dollars to any person making the best score in six shots with the rifle, and three dollars for the best with the pistol; payable the 15th inst., after which there will be turkey shooting up to the 23d, at the Astoria Shooting Gallery.
